eVantage TECHNOLOGY

WHO WE ARE

eVantage Technology is a professional and trusted IT solutions company dedicated to providing exceptional service to businesses in Singapore and across Asia. We work with organisations of every size and from every sector. One thing is constant throughout all of these partnerships – a relentless focus on delivering outstanding customer satisfaction.

How do we deliver on this promise? We have assembled a team of IT experts from varied industry backgrounds, cultures and generations. Working together, our team provides the best of East and West business knowledge, with the international exposure and critical local knowledge to successfully meet all your IT needs.

WHAT WE DO

We specialize in providing the following business solutions:

> Cloud Solutions
> IT Project Management
> IT Security
> IT Support Services
> Telephony
> Turnkey Office Fit Out

We can supply you with a comprehensive range of IT services – all through a single point of contact. Whether you are a new company start-up or an established player in the market, eVantage Technology can help your business by delivering a tailored IT solution.

WHY US

By combining our extensive technological experience with a thorough understanding of our clients' needs, we deliver high quality and relevant solutions that work.

We are a team of experienced IT professionals and qualified engineers that can provide you with a "right-sized" IT solution for your business. When you partner with eVantage Technology you can be sure your business needs are in safe hands.
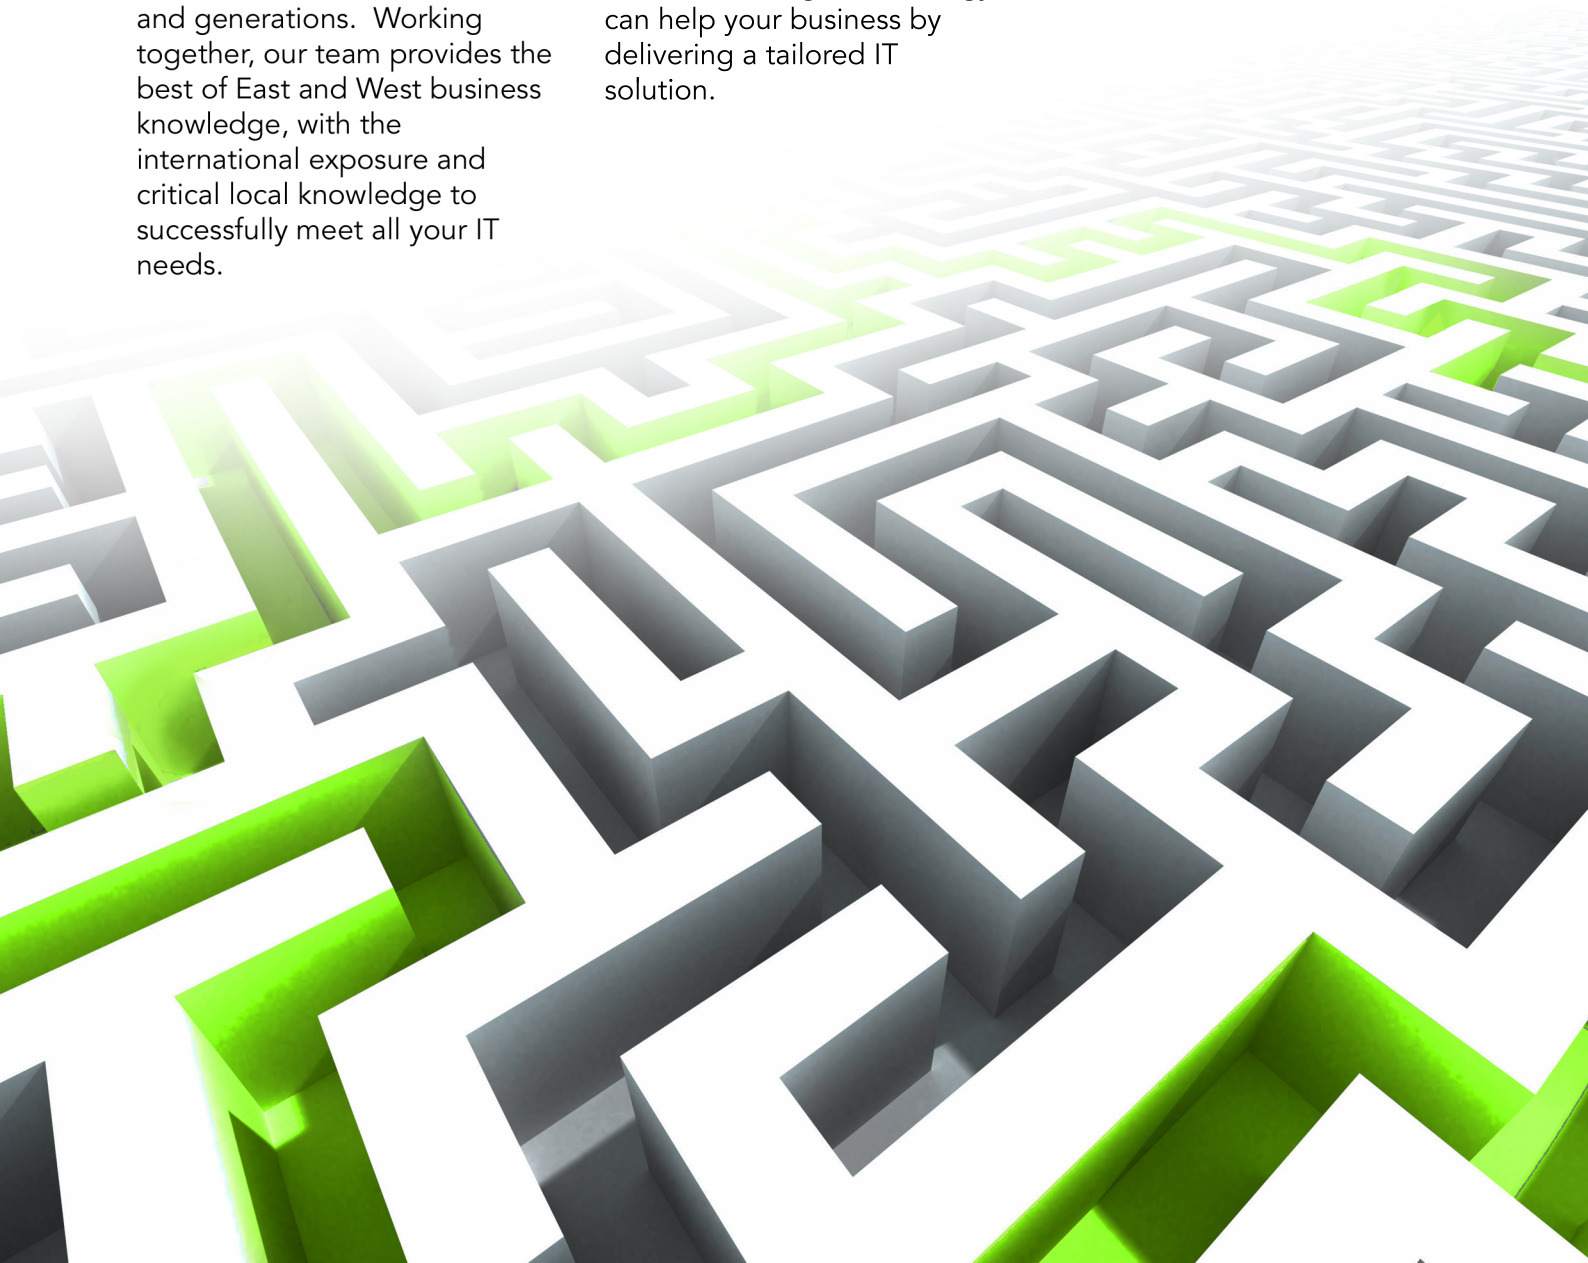

CLOUD SOLUTIONS

Cloud computing delivers IT solutions via the internet, which are accessed from web browsers, desktop and mobile applications. The business software and data are stored on servers at a remote secure location.

eVantage Technology understands how important your business and email data is. We can ensure the migration from your existing IT solution to the Cloud is smooth and hassle-free and shall be accessible from anywhere.

1 Reduced Costs

Cloud technology is paid in smaller regular amounts, without huge capital expenditure, saving businesses money. Ongoing maintenance costs are also reduced.

2 Highly Automated

No longer do IT personnel need to worry about keeping software up to date. Maintenance of cloud computing applications is easier, because they do not need to be installed on each user's computer.

3 Flexibility

Cloud computing offers much more flexibility than past computing methods. Clients are able to adjust their requirements as their business grows, and upgrades in storage capacity can be delivered quickly and easily.

4 Increased Storage

Organisations can store more data than on private computer systems.

5 More Mobility

Employees can access information wherever they are, rather than having to remain at their desks. eVantage Technology offers a range of Cloud computing solutions to meet your business needs regardless of your size or complexity.

IT PROJECT MANAGEMENT

Our skilled project managers and certified engineers will work with you every step of the way to ensure your project is completed on time and at a fixed cost, with no hidden extras.

We provide turnkey project management. This gives you the convenience and accountability you demand that can only come with working with a single, reliable point of contact for all your IT needs.

eVantage TECHNOLOGY

MANAGED CYBER SECURITY AWARENESS TRAINING

Our Fully Managed Cyber Security Awareness Training Program will allow you to provide an effective and engaging security awareness training to your staff and leave everything to us. We will help you administer and run everything, from your regular phishing simulations based off real-world scenarios, to processing and reporting your raw data.

COMPRISES OF:
> Access to policies and procedures toolkit
> Delivering engaging and relevant security awareness training
> Topics relevant to present day threats
> Testing of trained topics to spear phishing campaigns

WE OFFER
3 FULLY MANAGED PLANS

> **Basic**
> **Essential**
> **Enhanced**

FIND OUT MORE HERE
https://www.evantage-technology.com/man-aged-cyber-security-awareness-training/

WITH OUR MANAGED CYBER SECURITY AWARENESS TRAINING:

1 **Leave Your Phishing Campaigns to Us**

Leave is to us to administer regular phishing simulations to determine which staff are most at risk. For any staff who fall victim to a phishing campaign, they'll automatically be enrolled into tailored awareness training.

2 **Unable to Process Raw Data? We'll do the Reporting**

Receive detailed reporting from us, highlighting which staff and departments are at-risk. At-risk staff will be auto-enrolled into phishing awareness training.

3 **We Use Real World Templates**

Our campaigns use industry-specific spear phishing content that emulates real-world scenarios and prepares you for realistic attacks.

HELP

: TELEPHONY

eVantage TECHNOLOGY
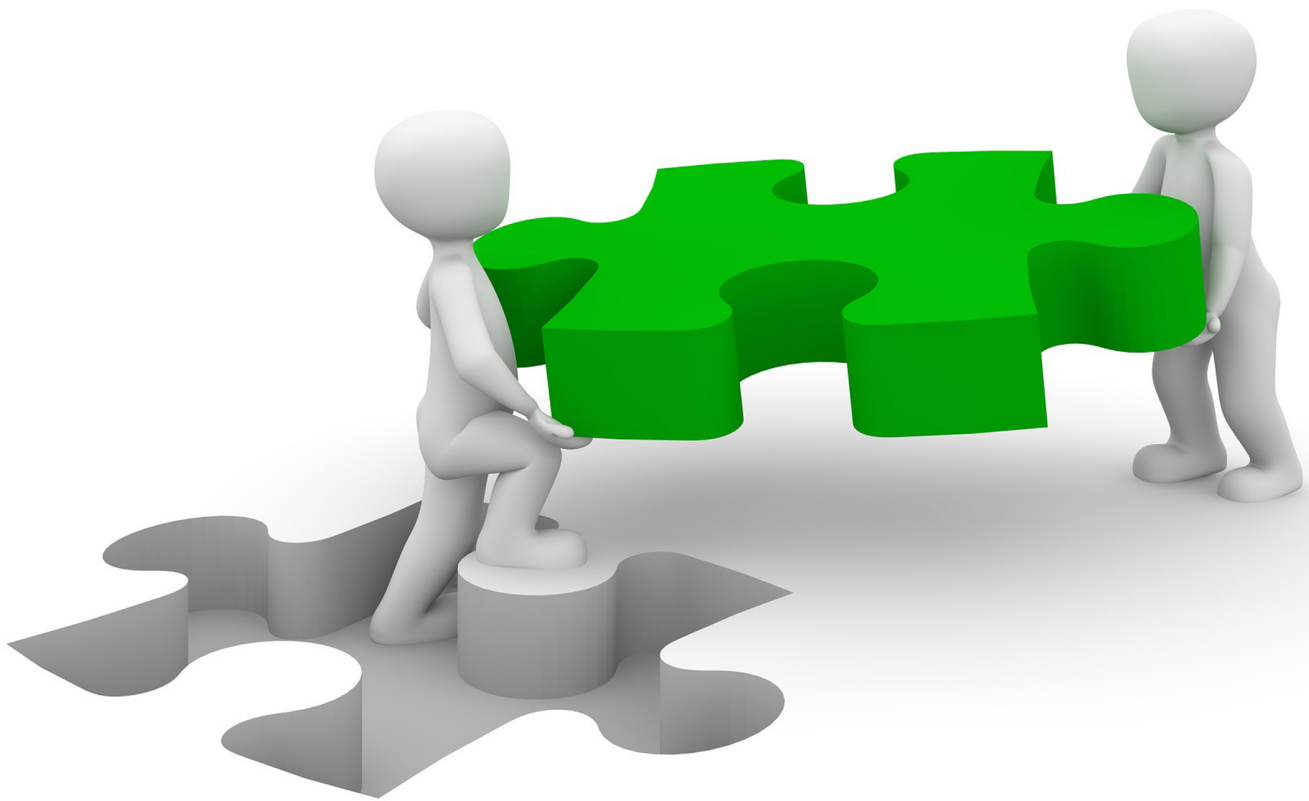

TELEPHONY

We believe that communication should be convenient. We make communication convenient for you by offering you simple and user-friendly telephony solutions for you to empower your business.

OUR EXPERTISE INCLUDES

1 Hosted PABX:
Seamlessly combine office phone systems to a VOIP service provider. 3-way calling, professional on-hold music service, direct numbers.

2 Voice over Internet Protocol
Connect to all of your communication needs. Conference video calls, additional phone lines, other collaborative tools.

3 Inbound Services:
Gives your office number connectivity across the world, creates a virtual service number and then transmits that call to you instantaneously.

4 SIP Trunking:
Reduces your costs for pricy phone lines, transnational calls and phone line maintenance cost.

5 PSTN & ISDN:
Automatically transfer calls to the remaining lines when a present number is being engaged, alternative flow of calls through PSTN and ISDN will allow a specialised connection between two callers specially for that call.
